WHOLESALE CATALOG OF BULBS AND FLOWER ROOTS

Unrivalled Facilities for Service

An airplane view of part of our bulb farm at Vogelenzang, Holland. Note vast acreage under intense cultivation. Buildings in right foreground are our warehouse and offices. Such equipment enables us to give superior service.

A field of American grown Narcissus at our Benton Harbor, Michigan bulb farm.

To Our Friends and Customers:

In making up our 1928 Catalog we have endeavored to list in as brief a space as possible all the leading varieties of bulbs and roots and such novelties as we know from our experience are most suitable to the florist trade.

It gives us a great deal of satisfaction to serve so many of our customers year after year, whereas it is also encouraging to add many new names to our list of customers every season.

This increase in business has enabled us to again considerably enlarge our plantings in Holland as well as in the United States.

At our farms in Holland, where we have specialized in bulb growing since 1883, again new land has been brought under cultivation and just recently our new warehouse has been completed which has been modernly equipped for the proper storage and care of our bulbs.

It is this vigilance in caring for our stock, together with our care in the cultivation and our special attention to packing and shipping, that has placed us among the leading exporters of Holland bulbs.

At our Michigan farms our acreage devoted to Gladioli, Narcissus, Peonies and other domestic stock has also been increased. Growing there is being handled by men with life-long experience in bulb culture.

Sales of Holland as well as of domestic-grown bulbs are all handled through our Chicago Office, where all correspondence should be addressed. This office will give prompt attention to all orders and inquiries and will see to it that shipments reach our customers with the least possible delay.

We shall always be glad to give customers the benefit of our experience in assisting them in making up the right selection of varieties most suitable for their particular wants.

We trust that we may be favored with the continuance of your esteemed patronage.

Yours respectfully,

GENERAL BULB COMPANY, INC.

Terms and Conditions

In order that we may serve our customers with the greatest speed and to their satisfaction, we have drawn up these terms of sale. By placing their orders, our customers are considered to agree to these terms.

All stock shipped out is of the highest quality and is guaranteed to be true to name and description. We do not guarantee, express or implied, the result of planting, forcing or flowering of any bulbs or roots.

Our prices are net f.o.b. shipping point in Holland or the United States, unless otherwise agreed upon and are subject to change without notice, such changes depending upon market fluctuations. On import orders, freight, insurance, packing and crating will be charged at cost and collected on delivery.

We give a discount of 2% for payment within ten days of date of invoice. Other accounts are due within sixty days unless special terms are arranged for. We allow a special discount of 3%, if cash accompanies order. In case old accounts are left unpaid, we reserve the right to cancel later contracts at time of shipment.

In case of partial or entire crop failure, or some other reason beyond our control, orders are subject to part delivery. Changes in orders can be made if both parties agree.

Complaints and claims will be entertained if made by telegram or registered mail to our Chicago Office within five days after delivery of the merchandise.

Only agreements in writing are binding.

GENERAL BULB COMPANY, INC.

Tulips

Vermilion Brilliant

The Tulip is without doubt the most popular of spring flowers. Each year sees more Tulips grown in the yards of American homes and sold through the florists trade. At our bulb farms in Holland we have devoted a large acreage exclusively to the growing of tulips. Here we have men who have devoted their lives to bulb cultivation. Their years of experience plus scientific methods and the finest possible equipment are the factors which produce bulbs of unusual quality. Our unexcelled warehousing facilities enable us to properly cure the stock and to handle it economically and well. We specialize particularly in the commercial varieties required for the florist trade. Our stock of these varieties is exceptionally large and of finest quality.

Hyacinths

Hyacinths are also universal favorites among spring flowers. Their delicate perfume and rich colors have created an increasing demand among florists and the retail trade. We have, we believe, the largest acreage of Hyacinths of any grower in Holland. Scientific methods and unusual care has made the stock free from disease and in splendid condition. We have large quantities of commercial varieties in all sizes. We take pride in keeping our stock up to date with the best of the newer introductions.

Gertrude, Single Rose

CITY OF HAARLEM, pure yellow, large truss, extra fine. Exhibition variety.

King of the Yellows, bright yellow, compact spike.

YELLOW HAMMER, pure yellow, beautiful neat truss, very recommendable, early.

Single Purple and Violet

Distinction, very dark maroon.

Lord Balfour, lilac, tinged violet, very large bells.

Sir William Mansfield, purplish mauve.

Prepared Hyacinths

Specially prepared Hyacinths are of great value to the florist trade. By means of artificial treatment flowering is advanced two weeks or more. It is of great importance that the bulbs after having been dug prematurely should be given the correct temperature in the warehouse in order to produce satisfactory results. Our men in charge of preparing Hyacinths have had years of experience. Moreover, in building our new warehouses, special arrangements have been made so as to insure a perfect system of preparation.

Prices of Prepared Hyacinths

	Per 100	Per 1000
Top Size	\$16.00	\$150.00
First Size	15.00	140.00

Narcissus

The following is a list of Holland grown Narcissus. Narcissus cannot be imported into the United States unless a special permit is obtained from the Federal Horticultural Board, Department of Agriculture, Washington, D. C. In the years 1926 and 1927 such special permits were granted for certain varieties for propogating purpose. Undoubtedly further circulars will be issued by the Federal Horticultural Board regulating importations for 1928. If interested in importing Narcissus from Holland, please write us.

Gladioli

The growing of gladioli bulbs has always been one of our specialties. Our list of varieties contains commercial kinds as well as novelties of proven merit. For forcing purposes we ship an extra selected bulb of large size and properly cured. All our stock is grown for bulb production only. No flowers are cut for shipping. Bulbs supplied are guaranteed fully up to size and true to name.

Primulinus Hybrids

This class of gladioli is known for its early blooming qualities and gracefulness of flowers. There is an increased demand for the better varieties of the Primulinus. While the flowers are somewhat smaller, they are gracefully arranged on the spike. In the larger sizes these bulbs produce two flower spikes to a bulb.

Gladioli Novelties

Besides the varieties listed above, we carry in large flowering and Primulinus varieties a great number of the latest novelties of proven merit. As our stock of some of these varieties is small we will from time to time issue special quotations on such stock. If interested in these novelties, write us for prices.

Peonies

We are herewith offering to the trade a list of peonies which we believe will prove the best investment, both for cut flower production, as well as for the sale of roots. We have large stocks of the leading commercial kinds. Stock strong 3/5 eye divisions from young plants.

The varieties in all capital letters are especially recommended.

Address all communications to the United States office, 168 North Michigan Avenue, Chicago, Illinois.

Dahlias

As there is an ever increasing demand in Dahlias for cut flower purposes, we have added to our collection of standard varieties, also such novelties as we are sure will become leaders in the future. We strongly recommend the purchase of some of the higher priced kinds, which can be started in the greenhouse in February and March. A number of cuttings can be made of each division, thus enabling one to make a good planting of the better kinds at very little expense. We ship strong divisions from field grown clumps.

American Grown Narcissus

We have specialized in the production of Narcissus in this country for the last ten years. For the last few years, we have imported from our own farms in Holland strong and healthy planting stock of the leading commercial varieties, which stock has been propagated on our Michigan farms. Narcissus supplied by us for forcing purpose to the leading florists have given satisfaction, and the early blooming quality has made this stock very desirable.

Miscellaneous Stock

Anemones

Anemones. Wonderful cut flowers of pleasing and attractive colors much like small poppies, some are single, others semi-double. They last very long when cut and could be used in enormous quantities for the wholesale market if the supply was big enough to fill the demand. We are usually sold out very early in the season on this wonderfully profitable stock for florists. Should be grown in well drained, leafy loam, with cool temperature, not exceeding 55 degrees. Do best in pans and pots, but if watered carefully and not excessively, will also do well in flats or benches. They should be planted between November 1st and March 1st.

	Per 100	Per 1000
De Caen, excellent strain.....	\$ 4.50	\$ 40.00
Hollandia, clear scarlet.....	5.50	50.00

Hyacinthus Candicans

or Galtonia. This giant summer hyacinth grows from three to five feet high and produces racemes nine to twelve inches long of white, funnel-shaped, pendulous flowers in July or later..... 15.00

Iris

The "Rainbow Flower," so called because of its wide range of colors and shades. You will find all these colors represented in our stock.

Dutch , in named varieties.....	4.50	40.00
English , in named varieties.....	5.00	45.00
Filifolia Imperator , blue.....	5.00	45.00
Spanish , in named varieties.....	3.50	32.00
in mixed varieties.....	2.50	22.00

Lilium Candium

One of the most ornamental species, and an old favorite. Easy to grow, with plenty of flowers.

First size stock.....	16.00	150.00
Second size stock	13.00	120.00

Lilium Regale

or the "Royal Lily of China." Wonderful cut flower, will last for days. The scent rivals the Jassamine. A hardy lily for outdoors.....

35.00 300.00

Lilium Tigrinum

a thoroughly old-fashioned and remarkably useful plant. It lives and thrives from year to year in an open border, where it is at its best if planted in masses.

Single	8.00	70.00
Double	10.00	90.00

Madeira Vines

A perennial vine that reaches a height of 10 to 20 feet in a season, and is prized for porches and arbors. Bears many small white flowers in the fall or late summer.

First size	3.50	30.00
Second size	2.50	20.00

Montbretias (Tritonia)

Showy, hardy summer-flowering bulbs, handled like Gladioli, growing 2 feet or more tall, producing a number of star shaped flowers.

Crocospaeflora , orange red.....	4.50	40.00
Etoile De Feu , vermilion and scarlet.....	5.00	45.00
Potsii Grandiflorum , inside golden, outside bright red.....	4.00	35.00
Rayon D'Or (Sunbeam), rich yellow, brown spotted.....	5.00	45.00

Ranunculus

Ranunculus. A very useful cut flower of exceptionally lasting qualities, of brilliant colors, on strong stiff stems, producing several flowers to each bulb. They are very double and resemble much the Pompom Dahlias. They should be grown like Anemones.

	Per 100	Per 1000
Turkish , mixed in colors.....	3.50	30.00
° named varieties	4.50	40.00
